

Reach for the stars – Celan Revolution

„[...] A bit more of everything. For example, a 118 cm high floorstanding speaker, which appeals to both sense and sensibility alike and doesn't cost the Earth.“

„[...] the Revolution 7 was able to really let loose when music and electronics came together, while its devotion to jazz and classical music is extremely emotional and precise.“

„[...] The Revolution needs space. If it's granted this, it will provide hours of listening pleasure.“

CONCLUSION

„A very attractive, large floorstanding speaker that needs to be let loose. Its pleasantly powerful fundamental tone and informative but unobtrusive treble range ensure listening pleasure. But it can also generate some real oomph with a very clean reproduction.“

- ★ Price/performance: very good
- ★ Sound: Top class
