

## EXCELLENT

"[...] It is particularly striking how the HECO beam the entire musical experience into our test room. They deliver an incredibly realistic and spatial sound and harmoniously place the music into the room. For sure we'll feel like listening to the album through to the end [...]."

"[...] From our point of view, this is an all-round successful loudspeaker that knows how to convince its audience in many aspects [...]."

### Pros:

- + supreme attention to detail
- + great spatiality
- + subwoofer-like bass
- + realistic sound reproduction

### Cons:

- NONE

### CONCLUSION

"With their Direkt Einklang the German brand Heco presents loudspeakers that boast an almost bold price-performance ratio. Even if they were twice as expensive, we still would give them top marks. This 1-way bass reflex system acts so very lively and powerfully and creates such a high-quality spatial reproduction, that we wish there were many many more loudspeaker designs of this kind."
